CZECH PAPER TERMS RADIO FREE EUROPE
AN INSTRUMENT OF GERMAN REVENGE

The following article from The Prague newspaper Rude Pravo describes and comments on a London Daily Telegraph (and Morning Post?) discussion of the difficulties faced by Radio Free Europe. The Prague paper charges that Radio Free Europe is an instrument of German revenge on Czechoslovakia and Poland.⁷

The Daily Telegraph, a bourgeois English newspaper, recently discussed the difficulties encountered by the US radio station, the so-called "Free Europe" station. This station must conceal from its listeners its real program: the program of German revenge directed mainly against Czechoslovakia and Poland.

The Daily Telegraph article stated: "Radio Free Europe has the greatest difficulty ... insofar as the Sudetens are concerned and also in regard to the Oder-Neisse border. Any mention that the West is proposing to send some 2 million Germans back to Czechoslovakia, or of the return of Pomerania and Silesia to Germany, must be carefully related, since it would antagonize a great many listeners in Czechoslovakia and Poland, while giving the Communist governments valuable propaganda material."

In other words, if "Free Europe" would show its true colors and state its inimical aims toward Czechoslovakia and Poland, it would only corroborate the fact that the Czechoslovak people's government defends the totality and independence of its country, and the traitorous US radio would lose the balance of its listeners and adherents.

The English paper continued: "Radio Free Europe has learned how to evade the problems resulting from the multinational aspirations of the emigrants it uses for its work."

RESTRICTED

When this is translated into comprehensible language it means that the enemy radio station is praised because it has learned to mask its true purpose, to lie boldly, and to evade questions which would reveal its true nature as the instrument of aggressive policy against the totality, independence, and liberty of both Czechoslovakia and Poland. It is praised because it can deceive and cheat its listeners. This is an acknowledgement that the entire activity of the so-called Radio Free Europe is based exclusively on lies.

The English newspaper confessed that "Free Europe" is not only an organ of US aggressive propaganda, but at the same time an espionage organization which serves the enemy's purpose -- the purpose of German revenge.

Just what is the reason for the English newspaper's complaint?

Simply this, it is crying because the entire operation is about to be unmasked. Adenauer's government cannot comprehend all this sub rosa activity and it asks the traitorous band of emigres to show its true colors and openly publicize the new Munich and agitate for another occupation of Czechoslovakia with the aid of SS troopers and the Gestapo.

The English newspaper stated that unless the treaties between the West and Bonn are ratified, Radio Free Europe will have to operate under a German license, and the Bonn government has threatened to rescind this license if the broadcasts originating there do not conform to German policies. In other words, its license will be revoked if the radio station will not openly support the new Hitler-like policy of "Drang nach Osten" for the subjugation of neighboring nations -- this time with a new expeditionary force under US command against the USSR.

From the above it can easily be discerned just how thin is the mask covering the actual aims of Radio Free Europe.

In reality, this arch-traitorous station is only an instrument of German revenge which is being let loose against Czechoslovakia, Poland, and other peace-loving nations in support of US monopolists.

It is the shrill, creaky voice of the aggressors, whose program is bound to end in a shameful fiasco.
